

**CONTRACT OF SALE**

**THE BREEDER**

I am selling you a Kitten that is Fit, Healthy at the time of sale, well socialised Wormed and free from flea's, and free from any visible defects  
It will come with a 4 Generation Pedigree, some food it is used to and diet plan guide to work from, a sample of litter it is used to making the change over easier. The Kitten will also come with a 4 weeks Pet plan Insurance, which will cover you for the initial hand over period- -which I advise you to renew for at least the first year.

**THE NEW OWNER**

1. Will be expected to keep the kitten in clean warm surroundings- -with enough room to have adequate exercise with either or both human or animal company at least part of the day. If you are out at work all day it would be a good idea to have an other cat /kitten as company for him/her.
2. If you suspect any health problems you should seek veterinary advice and treatment.
3. Always feed good quality food and always have clean fresh water at lib
4. Make sure the Kitten has Annual Vaccinations through its life, wormed every 3 months and preventative Flea treatment monthly – for instance Frontline. You will have him/her Neutered /spayed by the age of 6 months old.
4. Not to let him/her outside until at least 1 year old / hopefully in fenced garden and not near busy roads.
5. I Advise you to renew the Pet plan Insurance for at least the 1<sup>st</sup> year as kittens can be quite accident prone
6. Will notify me if you are having to rehome, so I can help guide you in the right direction of suitable new home.

**UNDER NO CIRCUMSTANCES PUT KITTEN / CAT IN A CAT RESCUE**
